Title:

Comments: Please add my name to OBJECT to the proposed expansion projects that Taos Ski Valley, Inc. is trying to implement in the future.

These projects will endanger our delicate systems of water integrity, wildlife conservation, air quality, traffic congestion on narrow and inadequate roads, especially through the village of Arroyo Seco through which all traffic must pass.

Taos Ski Valley Improvements 61390 is an attempt at corporate greed to take advantage of our beautiful natural resources for profit only to their business with no regard to the people who have lived here for generations or their way of life which has always respected nature and its preservation in all forms.

DENY this petition. A gondola in the narrow chutes of TSV is ridiculous! Thank you.
