Comments: As a resident, I'd like to submit my full support for the Taos Ski Valley Gondola and other improvements.

I believe the gondola will help ensure the safety of Twining and Kachina Roads, as they see significant traffic both during ski season and in the summer months. Last summer we had to tow a vehicle from a cliff edge where the driver had lost control and was teetering on the edge where there were no guardrails. The roads are far too steep and curvy for the number of cars they see.
