Last name: Kocsis

Organization:

Title:

Comments: No new buildings or motorized boats but, development of Nordic skiing..

Trails built wide enough to accommodate ski grooming equipment;

A pedestrian bridge over the Mendenhall River connecting the Campground to the proposed Lake Shore Trail;

Continuous ski trails from the Glacier Visitor Center, across the Mendenhall River, through the Campground and onto the west side of the lake;

Addressing parking capacity during the winter;

Adding electric vehicle chargers (the JNSC is hoping to purchase an electric snow machine, too!);

The employment of a professional nordic ski trail architect so the trails can accommodate multi-season, multi-sport users of the area.
