First name: Andy

Last name: Kulla

Organization:

Title:

Comments: I read the scoping document and looked at the maps and at this point the intention of the proposal looks OK to me except that I didn't see or perhaps missed any mention of weed control or spread prevention in the proposed actions so I'd suggest you include that as a project activity. Please "subscribe me to project updates" as was recommended in the scoping letter and please add this comment to your record so I can have standing to comment as the project proceeds. Please acknowledge receipt of this message so I can confirm my standing. Thank you. Sincerely, Andy Kulla
