Comments: Comment regarding Forest Service project #60950

As a resident of the north coast area who is a frequent user of areas within the Forest Service lands, I am writing to express strong opposition to the project named above. Environmental concerns, including the presence of several endangered species, the manner in which the forests are managed during this post-fire period, and how the management affects the use of the forests by residents and visitors, all need to be of important concern.

Thank you for considering my opposition.
