Comments: The times they are achanging and there is a new reality to humanity's perception of the future. The degree to which we are battering the Earth we are also battering the human psyche. And unfortunately the status quo has become a disorder. Every aspect of traditional planning and methods of operation absolutely need to be revisited - not just for us but for our children and theirs. Not one tree should be cut, not one plot of land bulldozed without first stepping back and looking at the situation through lenses focused on the future and survival of the human species. Such is clearly contemporary scientific deduced revelation.
