Comments: Hello,

As a resident of Arroyo Seco since 1998, I am very concerned about unchecked and irresponsible construction and destruction in the Taos Ski Valley.

We are all downstream and we are all at risk. Water and wildlife are the number one issues.

It is imperative that there be a stringent Environmental Impact Study before any construction and destruction continues.

Water is life. The Asequias are crucial to all. Let's show our love for Taos and our planet by not letting greed destroy the extraordinary beauty that we are blessed to live in.

Of Taos' mountain beauty and life, once it's gone, it's gone forever.

Let's do the Right thing.

Sincerely, Mandy Stapleford
