Comments: Lake Tarleton area is an oasis of natural beauty. I first discovered it in college with my dear friend when we spent a wonderful weekend swimming and hiking around the lake. I have since been back several times and have even had the joy to share this special place with my eldest son. I haven't yet had the opportunity to show this spot to my youngest son, but I hope to do so soon. I can't imagine what it would be like if this project moves forward and permanently mars this special and beautiful place! Please stop the Tarleton integrated resource project and protect this region for future generations to come!
