Comments: Th Lake Tarleton area represents one of the most beautiful and pristine locations in the White Mountains. I believe that, in lieu of further development, working with existing property owners in nearby towns to highlight and bring attention to the region better-balances the goals of promoting engagement with nature while leaving said nature as little-disturbed as possible. The Lake Tarleton ecosystem is a treasure, I strongly feel, and local commercial/lodging enterprises could easily support a significant increase in visitors without requiring a single tree removal or minute of concrete pouring.
