Organization: Virginia Bear Hunters Association

Title:

Comments:

Ranger Christensen,

I personally, and also with the Virginia Bear Hunters Association's backing ask you to initiate this management project to restore the health of the forests impacted in this project. This well thought out and researched project gives the Forest Service the ability to reduce the threat of catastrophic wildfire, insect infestation and disease, and to protect municipal watersheds. I think it is extremely important that forest management that has been ignored for years be put back on track to restore the health of the forests we have been blessed with. Thank you for the opportunity to participate in this process and best of luck with this extremely worthwhile project.

Respectfully, Richard Sprinkle,

Advisory Contact Virginia Bear Hunters Association
