Comments: Hello,

I read the proposal and think only people spending the night at one for the Blue Lakes should require a permit. Day hikers shouldn't have to request a permit. Many locals including myself are using this trail for training purposes or as a nice trail to go with friends and family. I think that restoration areas should be put in place to preserve the side of the lake more specifically. Designing a trail to go next to the lake would be good because now people walk on the wildflowers and such because there isn't an official trail. A composting toilet would definitely help reducing human waste in the area. Continuing education for Leave no trace should be a priority. Thank you!
