Title:

Comments: US Forest Service,

I'm writing today in opposition to Region 5 Post-Disturbance Hazardous Tree Management Project #60950, as written. My fiancé and I are blessed to live in the North Zone, which contains the Six Rivers, Shasta-Trinity, Mendocino and Klamath National Forests.

However, I would support amendments to the proposed plan that:

1. Focus efforts on high-use roads and other roads that serve a critical purpose, coupled with a review of the existing road network to determine which roads are no longer necessary.
2. Provide greater protections to impacted watersheds, as well as threatened and endangered species. More specifically, prohibits the expansion of commercial logging activities.

I am also requesting that you conduct an Environmental Impact Statement (EIS) before moving forward.

Thank you for your time and consideration.

-Nick Jiles
