Comments: To Whom it May Concern:
I have visited Lake Tarleton for over two decades, the untouched views make it such a special place. Perhaps some of the most amazing views in all of the WMNF. It was my understanding that when the land was secured by WMNF this beautiful area would be protected. The character of this wilderness is so unique and deserves preservation as a scenic area. Please protect Lake Tarleton and it's surrounding forests!
Thank you!
Tom Whitehead
