Comments: When we take hiking trips to the area north of Franconia, and going along Route 3 towards Twin Mountain, we enjoy poking a jab at the Mount Cleveland Scenic Vista. Not that there is anything wrong with preserving this view, but to all Kingswood Camp people, this viewshed pales in significance to ours along the shore of Lake Tarleton. We heartily support the idea that the Lake Tarleton/Webster Slide area be recategorized as a scenic area. I've been to all those designated areas east of I-93 and I have got to make the passionate argument that the Tarleton/Webster area is every bit worth preserving as any of the others.
