Comments: The expansion of Taos Ski Valley will impact our water quality and drought situation while it only benefits the Ski Valley to make money. Just for money they will impact our water quality for the entire state as that water from the mountains is used all the way down in the south of New Mexico as well! They will affect a lot of people and the environment and wildlife just so they can make more money. They will use so much water to make snow and clear a lot of land. We are already in one of the poorest states in the country! I think this must be stopped. People further want to destroy the planet for personal gain. Just wanted to make you aware.
