Title:

Comments: Please remember this is PUBLIC land. The owner continues to use it as his private playground. Further expansions should not be allowed until full compliance with public access. If lifts are spinning then paying guests should have access. Early access to his friends, VIP holds so he can get the goods before paying guests, trails only open for VIP use and the dining space closed for private use are just some of the problems. Claiming your "GREEN" yet building an outdoor swimming pool on the north side of a building?? Spinning lifts for the use of a few VIPs?? The ICON pass has brought in the crowds. The parking problem needs to be addressed before more skiers are drawn to the mountain.
