Comments: Due to the over use of Blue lake area in the last few years I totally support a reservation and educational system for camping and day use for the area.

A couple years ago, on July 4, I happened to drive up to blue lake trail head to go hiking onto west Dallas trail There were about 200 cars if not more parked all over the place including all over the vegetation

I was heart broken to see the impact of such a crowd on a pristine area.

Please limit the amount of visitors to the blue lake area but also to other lakes such as Columbine lake and ice lake
