Title:

Comments: I do not agree with having boats, especially motorized boats on Mendenhall Lake. Canoes, kayaks, and small row boats are acceptable. The serene environment of the Mendenhall Glacier and lake would be lost.

Please put money and focus on trails. More people would have more time and enjoyment if trails were improved. Construction a bridge over the big stream on West Glacier trail would improve the safety and accessibility of the West Glacier trail which accesses one of the only spectacular views of the Juneau Icefield.
