Comments: I am opposed to developing the Mendenhall area. People love Alaska because of wilderness. When does the slippery slope of "economic development" stop?

I hike the west glacier area frequently. Developing this area would directly affect my life in a negative way. I enjoy walking through the wilderness. Not town.

Adding vending to the area will lead to visitors unintentionally feeding the wildlife. We need to keep our wildlife wild.

We DO NOT want an urban Alaska. Please do not develop the area.
