Comments: I am writing this to request that the Tarleton Watershed area have a Scenic Area designation. The sights, sounds, and joy provided by the area are too unique to pass up. The Tarleton Watershed has been a part of my life since I was 10 years old. I have never come across a place as peaceful or relaxing as it in the 20 years since. Doing anything to disrupt this beautiful place would be destroying one of the best places not only New Hampshire has to offer, but New England as a whole. I have hiked around a variety of lake areas and mountains, and this area is by far the most impressive. Please do not take away one of the greatest places the state and our country has to offer.
