Comments: Please designate the forest around Lake Tarleton/Webster Slide as a scenic area and please cancel the Lake Tarleton Integrated Project. Without question, the state of New Hampshire has done incredible work preserving and conserving its natural lands which makes it a uniquely crucial region for those who continue to seek it out year after year. What seems to be without question a project without any ecological merit whatsoever, the Lake Tarleton Integrated Project is antithetical to various protections, acts, and declarations for conservation of New Hampshire forests and lands. It is the responsibility of any and all decision-makers to review all decisions, dissent, and concerns regarding this so-called project.
