Comments: To whom it may concern,

As a member of the Kingswood community for many years now, I have experienced the beauty of the White Mountain forest surrounding Lake Tarleton countless times. When I heard about the proposal to deforest the area surrounding the lake, I was shocked, and memories of hikes, flips off rope swings, and camping flooded my brain. While these memories will remain even if the forest is destroyed, what I fear now, as a camp counselor at Kingswood, is that the new campers will never be able to form the same memories, and not look out over the complete, pristine forest when heading down to breakfast each morning. I hope that this proposal is reconsidered and struck down, both for myself and future generations of campers and White Mountain visitors.
