Comments: I support permitting use of Blue Lakes trail and camping wholeheartedly. I was one of the people who counted visitors last summer using the trail. It amazes me how uninformed visitors are about using wilderness areas. I've also seen an incredible increase of visitors which has contributed to the degradation of the trail, parking area and campsite area in the past 12 years that I have lived here. I don't believe that the other portions of the Dallas trail need to be permitted such as the trails off County Road 5, however, those trails are still not overcrowded.

Thank you for helping to Save the Blues!
