Title:

Comments: Please designate the forest around Lake Tarleton (known as Lake Tarleton/Webster Slide) as a Scenic Area and please cancel the Lake Tarleton Integrated Project. As lakes across the nation dwindle in size, it is imperative that we do all we can to protect these habitats not only for the creatures who reside here, but for us. Trees provide necessary shade and nutrients to these systems and it is detrimental that they remain not only because they are nice to look while we visit but because they are more valuable where they remain than for whatever project they may become. These resources in particular can take over a decade to recover. Please, reconsider.
