Comments: The view across Lake Tarleton is iconic. Looking across the water to the mountains wouldn't be the same with out those trees there. Any change to Lake Tarleton would change this amazing scenery forever. The thousands of Kingswood campers throughout the years have grown up in these woods. I myself have been inspired to take photography classes because of this view. The pictures I've taken of Lake Tarleton will continue to help me in the coming years. Please change the designation to MA 8.5 scenic view to preserve this amazing sight.
