Comments: The Lake Tartleton area is one of the most important spaces in my life. It is so incredibly valuable in ways that are difficult to measure, but I can say with 100% certainty that I would not be the person I am today without having experienced the woods and forests in the region. Logging and destroying its natural beauty would deprive so many others of its pristine and stunning character and its ability to change people's lives. It would be a devastating and genuinely tragic mistake to go through with any logging in the area, something that history will not look kindly upon.
