Comments: I would like to see cabins in sunny, open areas. For example, in Duncan Canal the cabin used to be on a sunny point and now its in in darkness. The Harvey's Lake cabin should be rebuilt and the trees around it cut so there's room for picnics. That was used a lot when it was in decent shape. It was fun when there was a dock there for the kids to play on. It took a bit of energy to get there but it could again be a really nice family spot for a weekend on the lake, swimming and trout fishing.

I use the cabins a lot during the fall duck hunting season, and I would like to see existing cabins maintained or refurbished. Cut back the trees around them so they aren't dark shadowy hobbit holes.
