Comments: I Strongly object to the proposal. The Coronado National Forest provides important recreation opportunities. My wife is hiking there as I write this. I and she have devoted volunteer time as members of the Santa Catalina Volunteer patrol. There is no way we can see how the proposed activity could be carried out in an environmentally sound way. The forest will be damaged by increased commercial traffic and by exploratory drilling. If exploitation actually goes forward the impact will be really destructive. I will do everything I can to rallies friends and neighbors to oppose this activity.
