Comments: 1. An EIS for this project is more appropriate than the EA that is planned.

2. Public input is vip for this project

3. No roads should be constructed or reconstructed in this project area.

4. VIP to keep out of recommended wilderness and inventoried roadless areas so there is habitats for wildlife.

5. NO logging on any old growth. This is very important because so little of this remains.

6. Riparian protection VIP because of habitat for bull and west slope cutthroat trout.

7. Old growth definition must be 16 inches in diameter or greater.

8. Protect wildlife by keeping high standards of habitat.

9. Migration corridors for wildlife must be maintained.
