Title:

Comments: I am submitting this comment on behalf of the Ravalli County Farm Bureau as President of our local organization.

Based on the policy adopted by our membership, we support timber management projects with the intent to reduce wildfire disasters and also improving grazing opportunities for both wildlife and livestock. We would strongly support and encourage the role of grazing for both wildlife and livestock in working towards a more healthy ecosystem.

Additionally, we would like to see timber harvest methods that can have a strong economic impact in our local communities.

Our leadership desires a seat at the table as this project evolves.
