Comments: I strongly request that the WMNF take the "no action" alternative for their current plan to log near Lake Tarleton. It is very unfortunate that after my wife and I donated \$2M to help TPL prevent a major housing development, the WMNF did not designate Lake Tarleton and its surroundings a scenic area. Since then many people and animals, from competitive swimmers to endangered Northern Long Eared Bats, have relied on Lake Tarleton and its surrounding forest for a safe and beautiful place to live or visit. We feel strongly that logging this area would be unconscionable.
