Title:
Comments: To Whom it May Concern,
I oppose the Forest Service allowing more mining in this region.
Does it concur with climate....no
Is it environmentally safe....no
Is it what the public wants....no
Does this enrich the mining industry.....yes
Does this enrich the big businesses...:yes
Is the Forest Service and USDA pandering to Corporations...yes

This admin has the temerity to continue the terrible policies under Trump. The Forest Service just can't learn can it?
Sincerely
Alison James
Sandy Hook, CT
