Title:

Comments: I AM the "public" and don't want to see ANY for-profit corporations EXPANDING their polluting and damaging operations onto "public lands". These lands belong to the PUBLIC, NOT to huge corporations! THEY SHOULD BE LEFT INTACT!

Also, PLEASE remember that we do NOT have another planet to flee to after polluting industries have totally trashed this one. In addition, we are BORROWING the Earth from FUTURE generations!

I KNOW this requires long range thinking - but, I'm sick of huge industries in pursuit of money, money, and more money damaging or despoiling our environment - our air, water, and land.
