Title:

Comments: Good morning,

It is necessary for me to register my objection to this proposed plan. There is an overwhelming majority of Americans who care deeply about our environment. We do not want it destroyed by companies who worship the almighty dollar and have a disturbing lack of morals. Public lands are for the use and enjoyment of all Americans now and those to come. We do not want mining, drilling, fracking or storing of waste on our public lands. When will the so called "government" of this country start working for the public good? No storage of waste on public lands.
