RE: Twisp Restoration Project

Gentleman:

I am writing in regards to the Twisp Restoration Project.

I am very much opposed to the portion of decommissioning roads. Just let them go back to nature. That ripping them up is a poor excuse of ruining the roads, just spreads noxious weeds. Just leave them alone.

Also opposed to eliminating the forest camp at Road End on Twisp River. We need more camps. Just a short fence up above river to keep people away from vision of the fish below.

Regards

Betty Wagoner
