Comments: I live and work in Bozeman, MT, and enjoy recreating in the Shoshone National Forest almost every weekend. I believe strongly that the open snowmobile season should NOT be extended to June 15 on Beartooth Pass; I value all recreational uses, including snowmobile travel, but I feel that maintaining the current season will provide the best balance of uses for the most number of users, as well as being much less impactful on the local grizzly population. Thank you for considering my voice and opinion on the matter.
