Title:

Comments: Please do NOT extend the open snowmobile season to June 15. Please keep Beartooth a wonderful, quiet, natural experience for NON-motorized recreationists from April 30-June 15. - A mere six weeks of peace and serenity. Noise makers and polluters get it the whole rest of the winter! Natural experiences are more important than ever. If no one ever has an opportunity to enjoy peace and quiet in the Forest, the idea that it exists will be lost and so will its value.
