Comments: I am writing to express my concerns about the proposed extension of snowmobile season on Beartooth Pass. For years I have enjoyed the Memorial Day opening of the pass to get out on my skis - both cross country and downhill - to experience its beauty and thrills. Extending the snowmobile season to June 15 as proposed would potentially increase conflict between non-motorized and motorized over-snow use - snowmobiles would certainly negatively impact my enjoyment of a cherished activity in a spectacular place.
