Comments: Hi, I am a backcountry skier from Bozeman who has been skiing on beartooth pass for the past 7 years. Increasingly, sled usage of the beartooth pass area has caused a major conflict between non motorized and motorized users. I have had close calls and my friends have had close calls with sleds almost taking us out. The entire winter, the beartooth pass area is for all intents and purposes closed to people who want to ski in (except for the hardos). Please do not extend the sled access out to June 15th.
