Title:

Comments: It is ironic that you are proposing to cut down trees in "Carbon" County, which will release tons of Carbon. This and other Forest Service logging projects in the guise of "thinning", "restoration", "fuels project" are all thinly disguised project to enrich the LOGGING INDUSTRY. Wildfires are bigger and worse after these types of "fuels reduction" projects than just letting nature rule these Public Lands.

Please say NO to further destructive interventions into our Public Lands.
