Comments: i am totaly against harvesting,logging of trees on custer gallatin. i also think you make it really hard for the public to get in touch with you, you sent out an email that had no email form on it, no names of people to write to in email format. do you really think most people write letters anymore. maybe only attorenys because they get paid for it.nobody else writes letters anymore. even your own forest agency doesnt write letters to us you use emails so why the hell did you forget to put any reply email sites on that letter you sent me.
