Comments: Dear Forest Service representatives,

Knowing what we know about the warming of our planet; how can you possibly consider clear cutting any forest?
Renaming and rebranding destruction of the environment to make it sound like you are doing the community a service is deplorable and inexcusable!

Cutting fire breaks in well studied locations is entirely acceptable as a safety precaution but a for-profit clear-cut to supposedly benefit a ski resort is entirely Unacceptable!

You know better than this! We ALL know better than this! NO! NO! NO!
