Comments: To whom it may concern,

I am one of the few permanent residents that resides in Detroit, Oregon. Please fall all fire-killed and injured trees. The revenue alone would be worth it (financially speaking), and the forest needs to be replanted for wildlife and safety concerns. For my own selfish reasons, looking at the burnt trees every day is very depressing, and I'd like access to the wonderful mountains that surround the town I permanently live in.

Thank you.
