Comments: Cube Cove should be allowed to heal naturally from the damage caused by past logging. The Forest Service's massive "restoration" program using heavy equipment is inappropriate for the Kootznoowoo Wilderness, and violates the spirit of the Wilderness Act-through its extensive use of chainsaws, helicopters, motor vehicles, and other motorized equipment, plus tree cutting, placing woody debris in riparian areas, and other proposed actions. Allow the area to recover on its own or analyze a wilderness-compatible plan if it chooses active restoration, such as one that uses non-motorized hand tools rather than chainsaws and heavy equipment.
