Comments: I oppose the restoration project for the Cube Cove area. Left alone, the area is healing itself and will recover naturally, building an appropriate ecosystem without human interference or tax dollars. Nature is more capable than people at doing the kind of reconstruction that the area needs.

Bringing in heavy equipment and other invasive, noisy human devices continues the harm to the area's ecosystem and violates the letter and the spirit of the Wilderness Act. If you cannot be patient with Nature, at least please develop a plan that uses non-motorized tools and other non-disruptive equipment to respect and protect the wildlife returning to the area.

Thank you for your consideration.
