Comments: Heavy equipment use is the worst thing for the Kootznoowoo Wilderness.

Consider the Wilderness Act.

The area should be allowed to fully recover on its own.

Give time for natural processes to heal the damage.

At the least, the Forest Service needs to analyze a wilderness-compatible plan if it chooses active restoration, such as one that uses non-motorized hand tools rather than chainsaws and heavy equipment.

Reclaimed roads should not be converted to trails.

If the agency does convert them, though, it must mitigate the impacts on wildlife from increased human use.

Thank you!
