Title:

Comments: The Forest Service's massive "restoration" program using heavy equipment is inappropriate for the Kootznoowoo Wilderness. This plan is a violation of Wilderness Act by using chainsaws, helicopters, motor vehicles, and other motorized equipment, plus tree cutting, placing woody debris in riparian areas, and other proposed actions.

Please analyze a wilderness-compatible plan that uses non-motorized hand tools rather than chainsaws and heavy equipment and evaluate the impacts on wildlife from increased human use if converting roads to trails.

Thank you!
