Title:

Comments: Cube Cove is healing from the damage caused by past logging, roads, and associated impacts, and the Forest Service's massive "restoration" program using heavy equipment is inappropriate for the Kootznoowoo Wilderness.

Let Cube Cove recover naturally with time to heal the previous damage. The Forest Service Using heavy equipment is the complete opposite of that.

Please don't turn roads into trails. The animals need this space to thrive.

Please consider what is needed for wildlife.
