Title:

Comments: Forest Service,

Let this area recover naturally. Nature knows how to do it best. Keep your machines, chainsaws and logging equipment OUT of this area.

Your proposed plan will inflict more damage on this brutalized area.

A designation of "Wilderness" means no intrusion by machines, roads, and above all, NO LOGGING!!!

Otherwise, you are no forest service, just mindless bureaucrats.

Step back, listen to arborists and environmentalists and back off this proposal.
