Title:

Comments: I am writing to you because I am concerned about the plans for the restoration of the above. The Kootznoowoo Wilderness must be allowed to continue to restore itself naturally as it has started to do. It does not need heavy equipment, chainsaws or more roads. Nature will balance itself if left to repair. The plan as it stands violates the Wilderness Act in fact and spirit. If existing roads are turned into tracks consideration must be given to how human traffic will impact the wilderness. Please let the wilderness repair itself. Thank you.
